DETAILED ACTION

1. The finality set forth in the last office action is hereby withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. **Claims 1-3, 8 and 9** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

With regard to claim 1, "a list of said plurality of gateways is stored in the by-pass network..." is not supported by the original disclosure; This is new matter.

The original claim 7 filed with the application is dependent on claim 6 and recites "an updated list of gateways in the by-pass network..." When read together with the original claim 6, the updated list of gateways in the by-pass network in the original claim 7 is stored in the intelligent network node, as recited in the specification p.7, ln. 29-30. However, "a list of said plurality of gateways is stored in the by-pass network..." is used to amend claim 1.
